

ZINCONEX

Descaler powder

DESCRIPTION:

Powdered scales remover suitable for thermal and cooling systems with galvanized or aluminium surfaces and sanitary installations. It contains an empty-indicator device which changes colour. Also ideal for: copper, steel, cast iron, and stainless steel.

INSTRUCTIONS FOR USE:

Prepare separately a solution of 5 - 15 % in water. Use appropriate pump with the opened filler-cap, the solution circulating in the system from pink becomes yellow. At the end of the effervescence process if the colour stays pink when adding some more product, this means the scales removal has occurred completely. Once the operation has been carried out, wash the system by using NEUTRAL product and then with water until pH 7.

PHYSICAL AND CHEMICAL CHARACTERISTICS:

Irritating for eyes, respiratory tract and skin

Keep out of children's reach

In case of eye contact, wash them immediately with plenty of water and consult a doctor

In case of skin contact, wash them immediately with plenty of water and consult a doctor

PHYSICAL AND CHEMICAL CHARACTERISTICS:

Appearance

solid crystalline powder, hygroscopic
white

Colour

not important

Odour

pH (10 % solution)

decidedly acid

Specific weight

1,6 g/cm³

Water solubility @ 25 °C

250 g/L
