

Leaks Sealers					
Products		Temperatures	Installation tipe	System age	Additive features and function
FASTOP-IT Tipo A		High / Low	Thermal		Sealant for thermal systems, for leaks of up to 10 liters of water per day
FASTOP-IT Tipo B		High / Low	Thermal		Sealant for thermal systems, for daily losses between 10 and 30 liters of water
FASTOP-IT Tipo C		High / Low	Thermal		Sealant for thermal systems, for daily losses between 30 and 400 liters of water
FASTOP-IT Tipo D		High / Low	Thermal		Sealant for thermal systems, for daily losses between 400 and 1000 liters of water
FASTOP-IT M		High / Low	Thermal		Elastic sealant for thermal systems, multilayer systems and synthetic materials
FASTOP PERMANENT		Low	Radiant		Permanent sealant for radiant systems and with anticorrosive action
FASTOP SOLAR		High	Solar Thermal		High temperature sealant with anti-corrosive action
FASTOP-IS		High / Low	DHW		Food-grade sanitary sealant for daily losses of less than 25 liters of water
